

Sue Ioanis

New York City Metropolitan Area | sioanis@rutgers.edu | sueannioanis.github.io

PROFESSIONAL SUMMARY

Lead Software Engineer with a track record of building and scaling software across fintech, consumer tech, and enterprise environments, including Mastercard, JPMorgan Chase, OkCupid, LeafLink, and American Express. Brings deep experience in scalable systems architecture, cross-functional technical leadership, and delivering reliable, high-quality software in fast-paced organizations.

SKILLS

Engineering & Architecture: Software Engineering, Data Engineering, Distributed Systems, API Production, Systems Architecture, Scalable Systems

DevOps & Reliability: CI/CD, Automation, Code Reviews, Secure Software Engineering, Production Support, Reliability, Performance Optimization

Leadership & Process: Technical Leadership, Cross-Functional Collaboration, Agile

EXPERIENCE

Lead Software Engineer

Mastercard

2022 – 2023

New York, NY

- Architected complex system integrations across services, owning technical problems end-to-end.
- Built scalable applications and promoted engineering best practices across the team.
- Improved software reliability workflows to support production stability.

Senior Software Engineer, ICS

JPMorgan Chase

2022 – 2022

New York, NY

- Architected and engineered resilient technology solutions supporting enterprise business needs.
- Partnered across teams to deliver secure, scalable software in a large financial services environment.

Senior Software Engineer

OkCupid

New York, NY

- Architected, engineered, and maintained customer-facing software features.
- Collaborated with stakeholders to improve application performance and user experience.

Senior Software Engineer

LeafLink

2019 – 2020

New York, NY

- Architected and delivered software solutions supporting business-critical platform capabilities.
- Improved service reliability and engineering efficiency across the platform.

Software Engineer, Resy

American Express

2018 – 2019

New York, NY

- Architected, coded, and shipped software supporting digital customer experiences.
- Contributed to stable technical systems underpinning consumer-facing products.

EDUCATION

Rutgers University - New Brunswick

Bachelor of Technology. Dean's List.

May 2013

University of London (UCL School of Management)

Certificate of Completion.

June 2023

MIT Media Lab

Executive Data Strategy Course. 100% Completion.

January 2023

AWARDS & HONORS

- The French Honors Society
- IBM Honors for Machine Learning
- Cognizant Technology Solutions Award
- The FWA Award
